In an age dominated by digital communication, the habit of reading books is gradually declining, especially among young people. While technology provides quick access to information, it often encourages superficial reading rather than deep understanding. Reading books, on the other hand, develops concentration, imagination, and the ability to think critically. It exposes readers to different cultures, ideas, and viewpoints, helping them become more tolerant and informed individuals. Moreover, regular reading improves language skills and enriches vocabulary. Therefore, despite the convenience of digital media, cultivating the habit of reading books remains essential for intellectual and personal growth.

Good timber does not grow with ease;	The stronger wind, the stronger trees;
The further sky, the greater length;	The more the storm, the more the strength.
By sun and cold, by rain and snow,	In trees and men good timbers grow.

Freedom does not mean license. It does not mean that you can behave just as you please and ignore the interests of others. A great responsibility rests on you. It is necessary for us to work as a united and disciplined nation. It is far more difficult to construct than to destroy.
